Introduction

GRUPO MURTRA

Industrias Murtra fue fundada por Don Ramón Murtra Segí en Granollers, en el año 1897. Inició su actividad como fabricante de cintas industriales, convirtiéndose rápidamente en el líder del sector.

Desde entonces, la compañía ha sido gestionada por 4 generaciones de empresarios de la familia Murtra que, apoyándose en equipos profesionales altamente cualificados, han ido diversificando el negocio industrial original.

Así, en 1982, el grupo inicia el negocio de fabricación de hilo de polipropileno y, en 1992, crea la división de Decoración, centrándose en la decoración de la ventana. Ello le lleva a contar con un catálogo cada vez más completo e innovador, acompañando a las tradicionales cintas de cortina (para las que Industrias Murtra siempre ha contado con patentes originales) con sistemas de aluminio para deslizamiento de cortinas, rieles, barras decorativas, portavisillos y otros complementos decorativos.

Por último, en 2003, en Grupo Murtra entra en la producción y comercialización de no tejidos para diversas aplicaciones industriales.

Esta fuerte expansión de la actividad industrial y comercial llevado al Grupo Murtra a mantener y reforzar un sólido liderazgo en España, en el sector de la ventana, y lograr presencia internacional en más de 50 países, contando además con instalaciones industriales en Italia (Emmebi) y Méjico (Murtra León).

Hoy, en el Grupo Murtra, nos seguimos esforzando con renovada ilusión para satisfacer las más exigentes necesidades de nuestros clientes, ofreciendo permanentemente un servicio y un producto de máxima calidad (según norma ISO 9002) y a precios muy competitivos.

Hoy, como hace más de 100 años, en Industrias Murtra trabajamos para usted.

MURTRA GROUP

Industrias Murtra was founded by Mr. Ramón Murtra Segí in 1897 in Granollers (Barcelona, Spain).

The first product manufactured was industrial tape, which made Murtra become a pioneering company in the narrow fabrics' sector.

Industrias Murtra has been run by 4 generations of the Murtra family since its beginning. The business has diversified its production and sales through the years as a result of the team work of the founders together with a highly qualified staff.

The firm began producing polypropilene yarn in 1982. In 1992 the Decoration Division was created and focused its activity in window decoration.

Since the late 1960s when Industrias Murtra started the production of curtain tapes until this 2011 Catalogue many products have been introduced to complete a full range of high quality and innovative window decoration products.

In 2003, the Murtra Group took part in non-woven textile production and wholesale for industrial applications.

This strategic industrial and commercial expansion has taken the Murtra Group to a remarkable leadership position in Spain where Murtra is leading the window decoration sector.

We are present in more than 50 countries and have factories in Italy (Emmebi) and Mexico (Murtra León).

We strive to satisfy our customers' needs offering an integral service and products of the utmost quality. Murtra was the first ISO9002 certified company in its sector.

Today, as we have for over 100 years, in Industrias Murtra we are glad to work for you.
